## On CCTV

## Consultation

**Thank you** to everyone who voted in the recent CCTV ballot. We had a good turnout and strong support for CCTV in the block (stats below). On the basis of this we have made a formal request to the council to install CCTV, and we await their response.

The request to the council has been to install CCTV in communal areas and the stairs. While there was support for CCTV on individual floors, this wasn't as overwhelming as the support for CCTV in communal areas. We are conscious that CCTV on each floor is more intrusive than in places like the lifts, so we have decided to not pursue this aspect at this time. We can consider this later, but would carry out further consultations before doing so.

Installing CCTV is a complex project and while we wait to hear whether the council will allow us to install it, we will continue to work on developing a plan and timescales, and will share this once we know more. There will be no cost to residents for CCTV to be installed

Would you like the Board to install CCTV in the block and communal area of the estate?

Yes  No  AB

Would you like cameras in the stairwells? Yes  No  AB

Would you like cameras on your floor? Yes  No  AB
